ALFONSO MUÑOZ MUÑOZ

Security Senior Consultant - IOACTIVE

@mindcrypt

https://www.linkedin.com/pub/alfonso-mu%C3%B1oz-phd/1b/414/198

PhD in Telecommunications Engineering by Technical University of Madrid (UPM) and postdoc researcher in network security by Universidad Carlos III de Madrid (UC3M).

He has been a senior security researcher for more than 10 years and has published more than 60 academic publications (IEEE, ACM, JCR, hacking conferences...), books and computer security tools. He has also worked in advanced projects with European Organisms, public bodies and multinational companies. For over a decade, he has been involved in security architecture design, penetration tests, forensic analysis, mobile and wireless environments, and information security research.

Alfonso frequently takes part as a speaker in hacking conferences (STIC CCN-CERT, DeepSec, HackInTheBox, Virus Bulletin, RootedCon, 8.8, No cON Name, GSICKMinds, Cybercamp, ...) and he is certified by CISA (Certified Information Systems Auditor), CEHv8 (Certified Ethical Hacker) and CHFIv8 (Computer Hacking Forensic Investigator).

He is co-editor of the Spanish Thematic Network of Information Security and Cryptography (CRIPTORED), where he develops and coordinates several projects about cybersecurity and advance training, with great impact in Spain and Latam.

Specialities (strong knowledge):

- Cryptography, Steganography, NLP and machine learning
- Digital Surveillance & Forensic technology
- Pentesting & network security
- Training and coaching
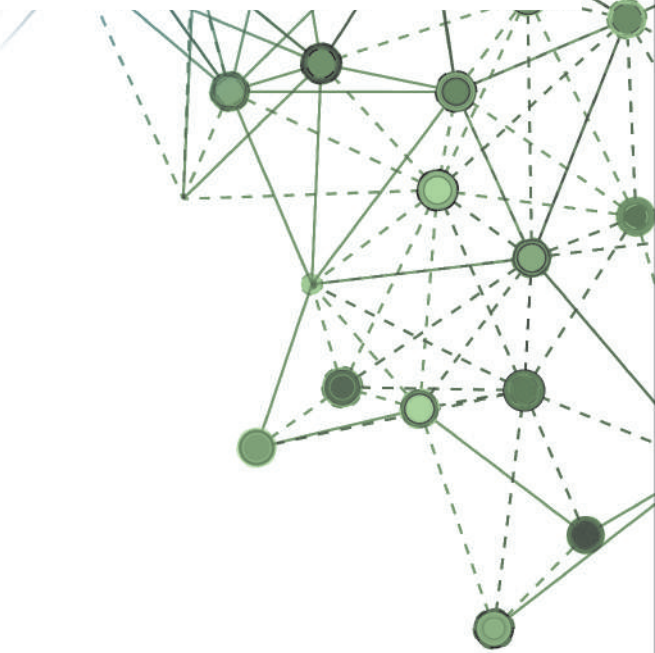

ARTÍCULOS PRESENTADOS EN CIBSI-TIBETS 2015

Ocultación de código malicioso en Google Play. Monitorización y detección temprana. *Full Paper*
